 Viral PCR (Saliva Swab)
 POC Antigen Test
 Antibody Test

MDS – JAVA PDPM Grouper (FY22 V.2.0)

This release contains support for FY2022 ICD-10 codes which are used with MDS assessments with a target date on or after October 1, 2021.

This release supports processing of records back to v1.0003, with a target date on or after October 1, 2019.

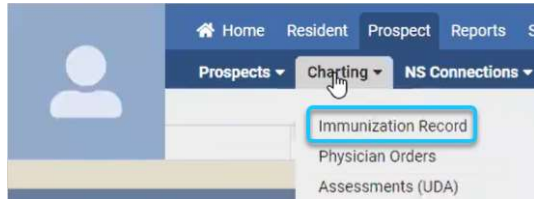

In addition, there were logic updates to the NTA Comorbidity Score Calculation.

Item M1040B has now been combined with M1404A and M1404C; now when any of these three MDS items is present, it adds one point, at most, to the total NTA score.

Immunization Reporting: HL7 2.5

Add eDocuments

+ Add eDocuments

Select + Add eDocuments to add new document to chart.

Dialog box for adding a new eDocument. Fields include: Date (08/18/2021), Location (4145 PCs), Type (History & Physical), Applies to (Resident), Imported by (Support), and a 'Hard Copy Sign' checkbox. A 'Save' button is at the bottom right.

Select +Click to Import eDocument to Choose File & Import.

Dialog box for importing an existing eDocument. It prompts the user to 'Import a document by indicating the location of the file and selecting import.' A 'Choose File' button is present, and the selected file is 'History & Physical.pdf'. An 'Import' button is at the bottom right.

Enter additional document details, signatures, and comments.

Preview eDocument and verify document information, then Save

The 'Add eDocument' dialog box with a preview window on the right. The preview shows document details: Date (08/18/2021), Type (History & Physical), and Applies to (Resident). The preview window shows the document content.

eDocuments View

Callouts:

- Collapse Folders for increased screen display
- Utilize Filters to reduce document listing
- Quickly navigate through eDocuments
- Row Count of Items Displayed
- Edit Details
- Easily eSign
- Detach from other chart items
- Delete
- Download
- Print
- Open to full view
